

## **Major Family Medicine**

---

### **Medical Test Results**

You will receive prompt notification of any results that require immediate attention, otherwise please allow 7-10 days for test completion and notification. For normal test results requiring minimal follow-up, you may be notified by mail. Otherwise our staff will call you with the results and any physician instructions.

If at any time you have additional questions, feel free to make an appointment with the doctor. If you do not receive notification of your results in the above time frame, please call the office to inquire about them.
